"Bug Report Form" just received a new entry #1

Link: <http://tim.wufoo.com/entries/delorian-bug-tracker/1>

- 1) Name: Tim
- 2) Last: Sabat
- 3) Cube Number: 69
- 4) Bug Description: My flux capacitor is broken. Even when traveling at 88mph I am unable to travel in time.

Marty This happened to me once as well. I'd suggest harnessing the power of a lightning bolt.

Doc has entered the room

Doc Warn Tim not to let his past self see his future self. We've got a space-time-continuum to worry about here.

Chase, so could you let the Flowdock Brand Committee know what you're planning to order? :)

Jake
ok, thx

JustinM
@Vehvis, Thanks for getting that fixed! When does your team usually deploy so I can verify the fix?

Chase
Sure thing, here is what the shirt will look like, I ordered 20 shirts of 5 M 10 L 5 XL to have a base
