Rails Q&A

Adding more links

```erb
<%= link_to 'Show', article_path(@article) %>
<%= link_to 'Edit', edit_article_path(@article) %>
<%= link_to 'Back', articles_path %>
```

Model Validations

```ruby
class Article < ActiveRecord::Base

  validates :title, presence: true,
                    length: { minimum: 5 }
end
```

Edit a record

```ruby
def update
  @article = Article.find(params[:id])

  if @article.update(article_params)
    redirect_to @article
  else
    render 'edit'
  end
end
```

Delete a record

```ruby
def destroy
    @article = Article.find(params[:id])
    @article.destroy

    redirect_to articles_path
  end
```

```erb
<%= link_to 'Destroy', article_path(article),
            method: :delete,
            data: { confirm: 'Are you sure?'} %>
```
